

# LANCASTER & MORECAMBE MODEL ENGINEERING SOCIETY

Secretary: David Wilson, 22 Naworth Drive, Carlisle, Cumbria, CA3 0DD

Email: secretary@lmmes.co.uk Telephone: 07721 020489

## Group Bookings

## Health & Safety.

Supervision of the children on the whole site is required by adults from your group **at all times**. At least one adult from your party **must** ride at the back of each carriage to supervise the children and be vigilant against misbehaviour that could endanger themselves or others.

A guard is provided to ensure passenger and train safety.

- Whilst riding on the train **all** passengers must remain seated with their feet in the foot wells. **Must not** lean out, or attempt to 'rock' the train.
- Catching a limb [hand or foot] under the train could cause serious injury.
- Passengers **must not** leave the train until it has stopped in the station and asked to disembark by the guard.

Smoking is not permitted on trains or within our Clubhouse.

Any person found to be causing a safety hazard or endangering other persons may be denied admission onto our trains, asked to disembark our trains or asked to leave our site.

**The safety and behaviour of all children remain the responsibility of their parents, guardians and booking organisers at all times while attending our site. Lancaster & Morecambe Model Engineering Society's responsibility is limited to the safe running of the railway.**

Steam locomotives, by their very nature, spit out spots of oil and soot as well as small sparks from the hot coals they burn. Whilst we take precautions to limit these, we cannot eliminate them entirely.

First Aid is not available on site but we do have a First Aid box that can be used Free of Charge.

We trust that you will have a really good safe fun day at our miniature railway and thank you for your booking.
