

Cinderbarrow Miniature Railway

The railway is located alongside a picturesque picnic site with two continuous tracks covering a quarter of a mile each, through a landscaped wooded area of Cinderbarrow. The railway and clubhouse were constructed when we moved to the site in 1996, using our own resources helped by generous donations from our many visitors.

The railway is operated by volunteers who are members of our charity, Lancaster & Morecambe Model Engineering Society. They build and maintain the railway and bring their own electric and steam

locomotives to give pleasure to others in the local community. At peak times the railway operates from a pool of various engines owned by members and the club. All proceeds are used for development and maintenance of the railway.

The railway is open for public rides to a published schedule, with special events such as Halloween, Driving Experience Days & Open Days. We are available for Group Bookings e.g Birthday Parties and school outings.

Opening Times 2018

Every Sunday and Bank Holidays.

30th March 2018 to 30th September 2018.

10:30 – 12:30

13:15 – 15:45

(Weather permitting).

Halloween Special

31.10.18 Ghost Trains 17:30 – 20.30

Member Activities

The Society currently has a membership of approximately 90, both male and female, starting from 10 year olds to 80+ year olds. Between them, our members have a wide range of experience, you don't have to be an engineer!

When public passenger trains are running, there are opportunities to enjoy the company of like minded people and to join in with activities which include; guards, drivers, signalmen and station duties. There are also extra fun events in which to take part; during club runs, Halloween ghost trains and Open Days, for members of other Societies.

Members are encouraged to run their own locomotives at regular Society events throughout the year, with development, construction, and maintenance on non-public running days.
